Portfolio

Education

Feb 2022 - Dec 2023

Web development (Full time)

Masai school

Jul 2018 - Jul 2021

Bachelors in Mechanical Engineering

RTMNU

Technical skills

- React js
- Typescript
- javascript
- html
- css
- tailwind css
- Redux
- react testing library
- AWS
- Firebase
- Node js
- express
- mongoose
- mongo db

Soft skills

- Teamwork
- Problem solving
- Adaptability
- Presentation skill

Experience

May 2023 - Present

TLM I Nagpur Maharashtra

Frontend Developer

- Independently managed the front-end development for client projects, ensuring a seamless user experience and responsive design while collaborating with backend developers and clients to meet project requirements
- Successfully delivered client projects within specified timelines, exceeding client expectations by providing high-quality, user-friendly web applications
- Developed an internal dashboard for the Lead Intelligence (LI) team, facilitating lead verification and status modification. Utilized GraphQL APIs on AWS to achieve real-time data retrieval from the database, enhancing operational efficiency
- Currently contributing to the development of a B2C product for the company, using a tech stack that includes JavaScript, HTML, CSS, React, TypeScript, AWS Cognito, AWS Amplify, Firebase, and Chakra UI
- Implemented Redux for state management, ensuring data consistency and efficient handling of application data
- Leveraged AWS services to enhance the scalability and security of web applications, further optimizing user experiences
- Continuously staying updated with emerging technologies and best practices in front-end development to maintain a high level of expertise

Projects

Shoppaholic Clone

Online store to buy skincare and cosmetics products.
